**cable erection**

I am on the late shift for the entire week, which begins between 9:30 and 10:00.

By the time I was at work before 10:00 AM, the work was called off again by ABF and all iron workers were sent home.

At the office, just as was the case yesterday, I tended to all the administrative items ranging from documentation of work, writing of reports, and the uploading of project photos, in addition to reviewing project documents and e-mails.
